Question:	What suggestions do you have to improve this course?
Response Rate:	63.64% (28 of 44)
1	nothing I would advise others to maybe take it online because generally online classes are hard but this class is very simple to follow the instructions so maybe someone that's new to taking online classes could learn how to follow instructions to succeed in an online class such as this if they offer this class online
2	none
3	none
4	This course is great in my opinion, I do not have any suggestions.
5	This course is fairly easy to complete, and get through. I absolutely love the fact that there is extra credit provided. If we could possibly take a tour of a hotel, as well as Red Lobster, that would be awesome.
6	Nothing I greatly enjoyed this class.
7	None
8	None
9	None
10	None!
11	No suggestions, I thought this course was formatted perfectly!
12	No suggestions surprisingly!
13	No suggestions the class ran smoothly and I enjoyed it.
14	NO
15	N/A
16	Maybe don't upload all powerpoint's online because it makes it unnecessary to even come to class.
17	I would suggest merging this course with HA 210 because much of the criteria is the same.
18	I was put into HA 210 and 240 during the same time as HA 100. This class was very interesting because the instructor has great knowledge of the hospitality industry and gave some great real world examples of the industry. But since I was placed in the other HA classes I found this class rather meaningless. The teachers in the other class went over everything we learned in HA 100 in the first week of class. to improve this class I would suggest having the students have more hands on assignments like going to more restaurants hotels and other hospitality industries. We had assignments like that and I really enjoyed them, but I wish there was more of them. I feel like having more of these experiences would benefit future students.
19	I think this class is very simple and could even be taken online. I dont really see any improvements. Maybe more interaction with other students in the class. The teacher has clear and easy to understand power points.

20	I think this course should only be taken online as everything else is basically online. I do not see a need to go to early morning classes when everything is done online already.
21	I think this course should have more days for more credits because i feel like we could go into alot more detail.
22	I think it would be helpful if the professor slowed down when lecturing because often I can't finish taking all of the notes off the slides or any everything he says. So I would either slow down or condense the slides into shorter ones.
23	I honestly have no suggestions in improving the class. It is great the way that it is.
24	I have been very intrigued by your lessons and stories. the only thing I would is that you don't change. I know this doesn't help much but you are a great and very understanding professor! I wouldn't hesitate to recommend a future student to attend your course.
25	I enjoyed this course.
26	I don't think anything really needs to be improved.
27	I don't think this class needs to improve because its perfect and the professor does everything perfect.
28	I don't have any!

6	The observations of hotels and restaurants really opened my eyes to what happens around me when I am in those kinds of places.
7	The observation assignments
8	The observations
9	The interview project and restaurant observation.
10	The interview project, listening to someone else's perspective on hospitality.
11	The interview project.

17	The assignments that helped my learning the most were the restaurant and hotel observations.
18	The assignments that have helped me out the most is the observations that we had to do about areas and fields.

20	The Quizzes
21	Taking the quizzes because I learn a lot from them and the power point presentations.
22	N/A
23	Is the weekly quizzes.
24	I would say the Interview Project was my favorite assignment because you got to interact with another student or experienced hospitality employee which you can gain valuable knowledge from that. You get to talk to someone in the hospitalitt industry to see from another person's perspective as well as give your own perspective. I also enjoyed taking the tour at Red Lobster. It was an awesome experience that our teacher offered us.
25	I really liked the restaurant observation.
26	I really liked the observation assignments.
27	I really enjoyed our restaurant observation assignment. I've never gone to a restaurant and really took in my surroundings and experience there and wrote about it. I've never been passionate about writing something before until this assignment and i really enjoyed it.
28	I enjoyed the hotel and restaurant observation assignments. Normally when I go to a restaurant I don't always think about it the ambiance and theme and all that. So that was fun to go and apply that and see for myself if they fit criteria to make a good hotel or restaurant.
29	I believe the Interview project is the most important assignment it takes the most time but it's still only a page to two pages it should not be that difficult and it helps to have heard other experiences in the hospitality industry
30	Extra credit pathways and the essays.
31	Either the hotel or restaurant observation
32	Doing the projects
